**The Advocacy Project** is all about supporting people to achieve a better quality of life. If you think your views aren't being heard, the Advocacy Project will support you to speak up for yourself, or we will speak up for you on your behalf. We can support you on a one to one basis. We can help you with benefits advice, complaints and help talking to people like Social Services.

### One to one advocacy

**Group Advocacy** we also have self advocacy groups where we speak up together on issues that you think are important, like the buses, health and keeping safe. The groups give you the chance to meet friends, become more confident and try new things.
