Share your journey

The Peterborough car share scheme has been extended so that walkers and cyclists can find 'buddies' to accompany them on their regular journeys. People using taxis can also share their journeys using this service. The scheme matches people with others making the same journey, allowing them to travel together.

Walking and cycling journeys

The idea is not just to help those who currently walk or cycle to find 'buddies' but also to encourage individuals who may be concerned about walking or cycling to give it a go, both as a way to get to work and as a leisure activity. By putting walkers and cyclists in touch with each other we hope to reduce some of the reasons for not choosing these forms of travel.

Taxi journeys

You can now search for someone making the same journey by taxi. This will enable people to have the convenience of taking a taxi whilst significantly reducing the cost.

It's easy and free!

To use any of the above schemes, simply visit www.travelchoice.org.uk and click on the 'share it' icon. Then simply register, enter your journey details and search for a match.
