Consultation started: 30 Jan 2017 — Consultation ended: 16 Feb 2017

When will results be available: At the end of the consultation period

Peterborough City Council wants to improve services that will help people keep healthy and well. This includes how to avoid catching sexually transmitted infections and unwanted pregnancies.

The Council therefore is undertaking a Prevention Sexual Health Needs Assessment.

We need to know your views and opinions on how people's sexual health may be improved in Peterborough. Everyone's views and opinions are important. They will help us understand what helps local people stay healthy and well.

Have your say

Please spend a few minutes on the [Peterborough Sexual Health survey \(https://www.surveymonkey.co.uk/r/PeterboroughSexualHealth\)](https://www.surveymonkey.co.uk/r/PeterboroughSexualHealth) and it could help improve sexual health of people in Peterborough. You don't need to give us your name or contact details to take part.
