Improving Lives through Care and Support

The Department of Health has a requirement for all local authorities to publish an Annual Local Account to inform residents about how they have delivered Adult Social Care services during the previous year.

Our Local Account for 2017/18 focuses on some areas of adult social care that we hope residents will find useful. It includes how well we have performed in the past year, the challenges we are facing and some of the things we are proposing to do in the future.
