The culture strategy encompasses arts, heritage, libraries and public space for cultural activity. The strategy team has undertaken a wide range of research and consultation activities to develop a close understanding of Peterborough's cultural sector and potential actions for the cultural steering group and partners to implement.

The vision is to bring local, regional, national and international interest in, and acclaim for, the city's cultural offer based on the variety and quality of the inspiring experiences it offers.

One city – many communities to raise the profile of culture and participation within the city and the profile of the city through culture and increase visitor numbers.
